Prep D's Show and Tell Roster Term 1

Show and Tell provides students with an opportunity to develop their speaking and listening skills. Students will be asked to regularly make brief presentations to their class mates on a specified topic, developing the skills to speak at an appropriate volume and pace for listeners' needs. They will practise sequencing main events and ideas coherently and self-correct by rephrasing when meaning is not clear. They will also learn to retell what they have heard and ask and answer simple questions for information and clarification.

Parents are asked to help their child prepare for Show and Tell by completing the task together and discussing what their child may say about each activity. We hope that by providing you with the program in advance it will make life easier and ensure your child participates every week.
